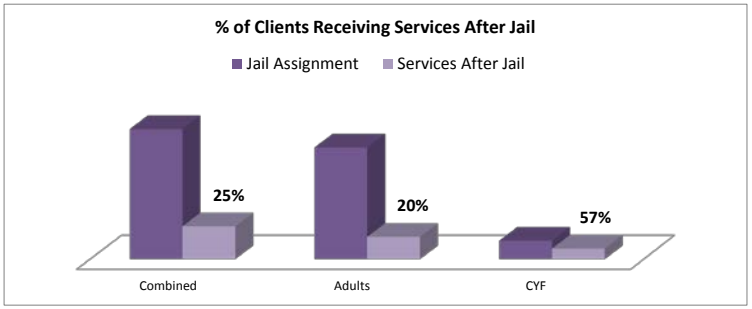
Services After FY 2012-13 Jail or Juvenile Forensic Services (JFS) Assignment

Note: Clients included in this report had a jail assignment that was opened in FY 2012-13. This report examines only services received AFTER Jail/JFS Assignment.

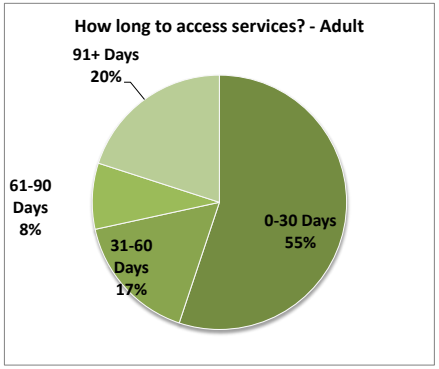
Total # of Unduplicated Clients with a Jail Assignment Open in FY 2012-13:	11,382	
Adult:	9,770	
Children:	1,612	
Total # of Unduplicated Clients with Services After FY 2012-13 Jail Assignment:	2,867	**% of Jail Clients**
Adult:	1,943	20%
Children:	923	57%

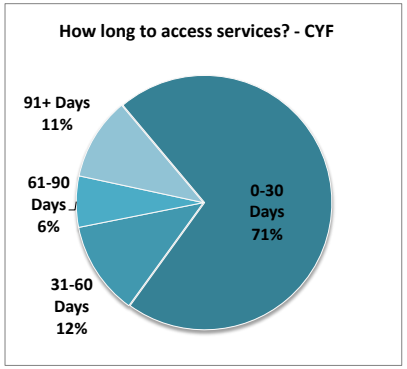


How long after jail assignment did clients access services?*

	Adult		CYF	
Days	N	%	N	%
0-30 Days	1,071	55%	656	71%
31-60 Days	320	16%	110	12%
61-90 Days	163	8%	60	7%
91+ Days	389	20%	97	11%
Total	1,943		923	

*Note: Only services from July 1, 2012 - September 30, 2013 included in analysis.

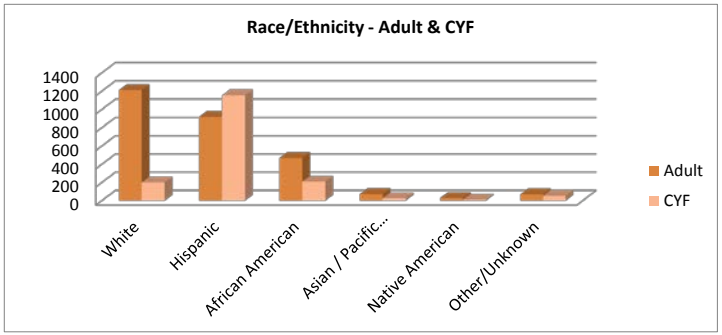




What Level of Care did clients receive after jail assignment?**

	Adult		CYF	
Level of Care	N	%	N	%
AB109	427	14%	4	0%
ACT	196	6%	6	1%
Case Management	114	4%	22	2%
Crisis Residential	194	6%	1	0%
Day Treatment	0	0%	74	7%
Emergency Services (EPU, PERT, ESU)	882	29%	41	4%
FFS Outpatient	193	6%	61	6%
Inpatient	249	8%	14	1%
Long Term Care	25	1%	0	0%
Outpatient	758	25%	857	78%
Prevention	4	0%	2	0%
Residential	11	0%	7	1%
TBS	0	0%	10	1%
Total	3,053		1,099	

**Note: Clients may have accessed more than one Level of Care. However, clients within each Level of Care are unduplicated.



Client Receiving Services - Demographics***

	Adult		CYF	
Gender	N	%	N	%
Female	448	23%	253	27%
Male	1,489	77%	669	72%
Other/Unknown	6	0%	1	0%
Age Group				
<14	5	0%	14	2%
14-17	0	0%	562	61%
18-24	210	11%	347	38%
25-59	1,648	85%	0	0%
60+	80	4%	0	0%
Race / Ethnicity				
White	1,212	62%	201	22%

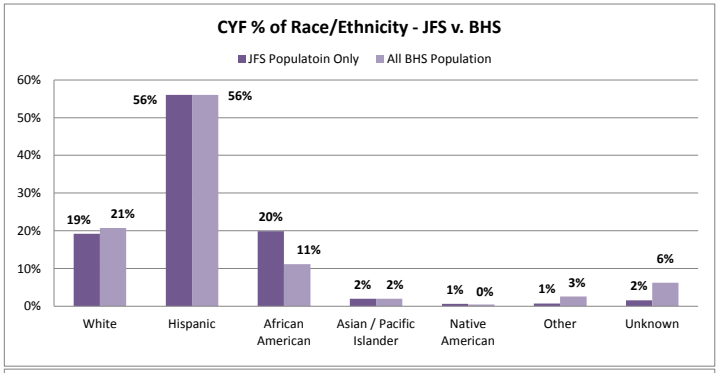
How does the Overall BHS Population compare demographically to the Jail population?

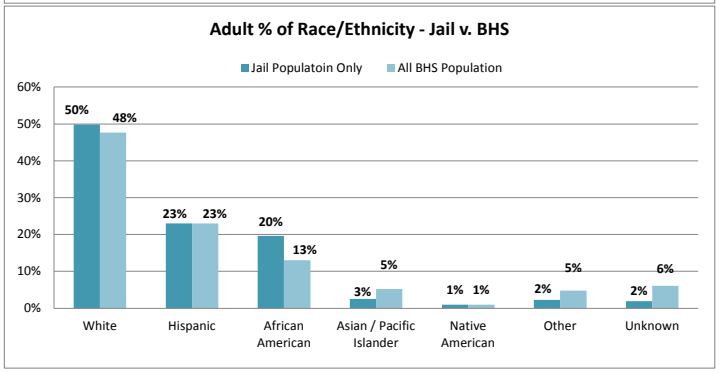
Diagnosis

- For Adults, there is a higher proportion of the following diagnoses in the BHS Jail population when compared to BHS Overall: Other/Depression & Substance Use.
- For Children, there is a higher proportion of the following diagnoses in the BHS Juvenile Forensic population when compared to BHS Overall: Oppositional/Conduct. & Bipolar Disorder .

Race/Ethnicity

- There is a higher proportion of African Americans in the BHS Jail/Juvenile Forensic population when compared to the overall BHS population for both Adults & Children.





Proportion of Clients Receiving Behavioral Health Services only in Jail/JFS Setting by Race FY 2012-13*

	AOA	CYF
White	62%	13%
Hispanic	66%	8%
African American	60%	11%

***Please Note:** This data examines clients served only in a Jail /JFS setting (i.e. no additional assignments were open for these clients within the FY). The majority of Adults in the Jail population only received services in the Jail Setting within FY 2012-13 as noted in the table above. However, only a small percentage of Children received their services only in the Juvenile Forensic Setting within the FY. Data was calculated by dividing total clients seen only in a Jail or Juvenile Forensic setting divided by the total # seen in Jail/JFS population, separated out by race. For example: 1,144 African American Adults were seen only in the Jail setting, divided by 1,921 total African Americans served in the BHS Jail population equals 60% of African American Adults receiving their services only in a Jail setting within during the Fiscal Year.
